

POWERXPRESS!

High Voltage Bible Experience Stations

Rotation Model for Children in Kindergarten through Grade 6

PowerXpress immerses children in the Bible. It's ideal for churches using a rotation format where children alternate between learning stations each week. With a rotation format, children experience the Bible story in different ways. This active style of learning helps instill the faith story in their hearts and minds.

Each unit of resources contains materials for eight stations: Art, Computer, Cooking, Games, Music, Science, Storytelling, Video. (If you are interested in Computer, Video, or Storytelling Stations, you will need to purchase additional materials listed in the resource.)

A unit provides:

- complete lesson plans
- stories
- scripts
- activities
- ideas for station setups
- a complete listing of resources needed
- a CD
- print music
- lyric transparencies

Instill the faith story in their hearts and in their minds
